## Biobank and Study support

### Biobank Services

Biobank application - other studies	Newly collected samples	Existing samples
Biobank application (Academic)*	0 kr	0 kr
- Preview	0 kr	0 kr
- Application for alteration/MTA	0 kr	0 kr
- Biobank application that is dismissed**	0 kr	0 kr
Biobank application (Commercial sponsor)	5200 kr	5200 kr
- Preview	2650 kr	2650 kr
- Application for alteration/MTA	2650 kr	2650 kr
- Biobank application that is dismissed**	2650 kr	2650 kr
Biobank application signed according to Multi centre principle		
- Preview	2650 kr	2650 kr
- Application for alteration/MTA	2650 kr	2650 kr
Biobank application for clinical trials price per study (unless otherwise stated)	Newly collected samples	Existing samples
Counseling before biobank application	0 kr	0 kr
New biobank application (valid and assessed)	9700 kr	13 350 kr
New biobank application when application of clinical trial/ performance study is cancelled/rejected <u>before it is valid</u>	0 kr	0 kr
New biobank application when application of clinical trial/ performance study is cancelled <u>after it is valid</u>	4850 kr	6675 kr
Application for alteration of biobank agreement	4850 kr	6675 kr
Administrative application for alteration which is not assessed	1550 kr	1550 kr
Update of biobank agreement (after the trial has been transferred to CTR)	0 kr	0 kr
Decision incl. handling (cost per biobank agreement at the local biobank)	1550 kr	1550 kr

## Biobank and Study support

### Biobank Services

#### Courses/Education

Ordered lectures	5700 kr
------------------	---------

### Study Coordinator Lab

#### Study coordination

Start-up cost for study, 15h (Services included: advisory service, logistics planning, internal coordination, price estimate and establishment of agreement)	10 500 kr
---	-----------

Time fee for study (For additional project time being added)	1050 kr/per hour
---	------------------

Referral design (Study specific paper referrals for sampling and sample handling)	1050 kr/per hour
--	------------------

List of samples (List of samples for batch analysis)	1050 kr/per hour
---	------------------

Analysis report (Compiled analysis laboratory data reports)	1050 kr/per hour
---	------------------

Laboratory medical analysis	see karolinska.se (use QR-code)
-----------------------------	---------------------------------

### Study Center Laboratory Medicine

#### Collection of samples healthcare integrated biobanking (PreBio)

#### Price/primary tube

Serum with gel 5 ml	Max 8 aliquots x 200 µl REMP	137,41 kr
---------------------	---------------------------------	-----------

Serum without gel 5 ml	Max 8 aliquots x 200 µl REMP	137,41 kr
------------------------	---------------------------------	-----------

Serum without gel 10 ml	Max 16 aliquots x 200 µl REMP	156,55 kr
-------------------------	----------------------------------	-----------

EDTA, plasma 5 ml	Max 8 aliquots x 200 µl REMP	137,41 kr
-------------------	---------------------------------	-----------

EDTA, plasma 10 ml	Max 16 aliquots x 200 µl REMP	156,55 kr
--------------------	----------------------------------	-----------

EDTA, Whole blood (to DNA extraction) 5 ml	Primary tube	45,05 kr
--	--------------	----------

## Biobank and Study support

### Study Center Laboratory Medicine, cont.

#### Collection of samples healthcare integrated biobanking (PreBio)

#### Price/Primary tube

LiHep, plasma (with gel)	Max 8 aliquots x 200 $\mu$ l REMP	137,41 kr
NaHep, plasma 5 ml	Max 8 aliquots x 200 $\mu$ l REMP	137,41 kr
Citrat, plasma 5 ml	Max 8 aliquots x 200 $\mu$ l REMP	137,41 kr
Urine 10 ml	Max 16 aliquots x 200 $\mu$ l REMP	156,55 kr
RNA PAXgene (Whole blood) 10 ml	Primary tube	107 kr
RNA tempus (Whole blood) 10 ml	Primary tube	45,05 kr
Feces	Primary tube	67,58 kr
Saliva	Primary tube	67,58 kr
Cerebrospinal fluid 10 ml	Max 16 aliquots x 200 $\mu$ l REMP	156,56 kr
Amniotic fluid 10 ml	Max 16 aliquots x 200 $\mu$ l REMP	156,56 kr
Breast milk 10 ml	Primary tube	156,56 kr

#### Withdrawal of samples collected through Healthcare Integrated Biobanking (PreBio)

#### Price

Withdrawal of aliquots***	Per aliquot	20 kr ***
Withdrawal of primary tubes***	Per sample	20 kr ***
Administrative handling of withdrawal order	Per hour	1050 kr

#### Healthcare Integrated Biobanking (PreBio) - additional services

#### Price

Education	Per hour	1050 kr
Producing reports	Per hour	1050 kr

## Biobank and Study support

### Study Center Laboratory Medicine, cont.

Study Center Laboratory - storage of samples		Price
Microtube, REMP 200 µl	Per year of sample storage, per received sample	0,49 kr/aliquot
Primary tube ≤ 5ml (for example whole blood for DNA extraction)	Per year of sample storage, per received sample	3 kr/tube
Primary tube > 5 ml (for example. Feces, Saliva)	Per year of sample storage, per received sample	6 kr/tube
Cryo tube, ≤ 2 ml	Per year of sample storage, per received sample	1,35 kr/tube
Study Center Laboratory- temporary storage of study samples		Price
Batch storage of samples	Per year of sample storage, per received sample	30,13 kr/Parent sample
Study Center Lab - manual handling of study samples		Price
Sample handling level 1		75,46 kr
Sample handling level 2		103,62 kr
Sample handling level 3		186,96 kr
Sample handling level 4		373,93 kr
Sample handling level 5		560,88 kr
Leukocytes, isolation of PBMC		1254,99 kr

## Biobank and Study support

### Study Center Laboratory Medicine, cont.

Study Center Lab - additional services	Price
Label printing	2,25 kr
List of samples for batch analysis	1050 kr
Referral printing	9,08 kr
Box for sample transport	111,78 kr

**All prices are VAT exclusive**

### Clarifications

\* = If the study is academic but at the same time is a clinical trial, then the price of the study is based on the price for clinical trials.

\*\* = The biobank application will be dismissed if the clinical trial/performance study application is withdrawn, relapsed, or rejected.

\*\*\* = price includes cost for materials, dry ice and internal transports between collecting sites. Please observe that withdrawals of the first 1000 aliquots costs 20 kr per aliquot. For additional withdrawals of aliquots (after the first 1000), the cost is reduced to 15 kr per aliquot withdrawal.
